

FAYETTE COUNTY RECYCLING GUIDE

Thank you for utilizing the University of Georgia - Fayette County Cooperative Extension. We have compiled this information to help you in your recycling efforts. If you need any further information or have any questions, please feel free to contact our office at 140 Stonewall Ave., Suite 209, Fayetteville, GA 30214 (770) 305-5412 ext 7.

The University of Georgia and Ft. Valley State University, the U.S. Department of Agriculture and counties of the state cooperating.

The Cooperative Extension offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, sex or disability. An equal opportunity/affirmative action organization committed to a diverse work force.

How can I improve the way I recycle?

To reduce contamination and improve recycling efficiency, wash and smash!

Wash

- Scrape out any food remains/pour away excess liquid.
- Rinse the container (use your washing-up water)
- Don't use the dishwasher – no need to waste resources to achieve an unnecessary level of cleanliness!

Smash

- Crush metal cans.
- Squeeze plastic bottles flat to expel as much air as possible.

These steps help prevent contamination and reduce the volume of material, making collections more energy efficient.

How do I know what I can recycle?

Plastics are a particular area of confusion. Technically, almost all plastics can be recycled, but the collection infrastructure and low market demand are barriers to the recycling of some types. Blended polymers are particularly costly to recycle, so yogurt pots, for example, are not usually collected because they are made from a mixture of polymers.

Check out recycling provisions in your immediate area. There are several resources on the web. One of the more popular is Earth911.org. You can also contact your local authority for details. Ask to speak to the Recycling Officer.
